3. RENEWAL – Electronic order of qualified digital certificates on a new USB key	36,67 €	3 years	110,00 €

2. Halcom One digital certificate (cloud)

HALCOM ONE QUALIFIED DIGITAL CERTIFICATE is a universal identifier that provides an excellent user experience and a high level of security. It enables fast and easy two-stage authentication and digital signing of documents based on a digital signature in the cloud.

	Informative calculation of the price per 1 year	Validity of the certificate	Price with 22% tax, validity 3 years
1. Existing user If you already have Halcom certificate on USB stick or card, use Halcom One as an additional service.	4,00 €	3 years	12,00 €
2. New user If you do not have a digital certificate, select this option.	8,33 €	3 years	25,00 €

3. E-seal qualified digital certificate

E-SEAL QUALIFIED DIGITAL CERTIFICATE is similar to an electronic signature, with the difference that the signatory is not a natural person with a name and surname, but a legal entity as a whole. A qualified electronic stamp with one pair of keys is used for secure electronic stamping, encryption and access control.

	Informative calculation of the price per 1 year	Validity of the certificate	Price with 22% tax, validity 3 years
1. Standard issue procedure on smart card Digital certificate is issued no later than 5 working days after the submission of all necessary documentation and payment received.	38,33 €	3 years	115,00 €
2. Standard issue procedure on USB key Digital certificate is issued no later than 5 working days after the submission of all necessary documentation and payment received.	43,33 €	3 years	130,00 €
3. Issuance of e-seal qualified digital certificate for systems (HSM, devices, servers, etc.) The digital certificate is issued no later than 5 working days after the submission of all necessary documentation, payment received and electronic request.	95,00 €	3 years	285,00 €

4. Website authentication certificate

WEB AUTHENTICATION CERTIFICATE is used to certify the public keys of users and organizations that have a valid web address. The server key is used to encrypt a single symmetric session key, which then secures all communication between the server and the client.

		Validity of the certificate	Price with 22% tax, validity 1 year
Issuance of a certificate for website authentication		1 year	100,00 €

5. Smart card readers

Reader type	Price with 22% tax
